

Perforating Drilling Tool

A new solution to well known challenges

Make as many perfect holes for Inflow, stimulation or cement squeeze as needed

This unique tool will let you

- Get access behind tubing or casing
- Make holes to exact size each time
- Defined penetration depth

The tool is

- Wireline operated
- Can be Tractor conveyed

And most important, it will do

- Through tubing operation

PDT Specifications

Perforating Drilling Tool standard version

Electro / hydraulic tool

Pressure and temperature compensated

Length ca 4,5m

OD 3,75" or 3,5"

Largest anchor dia.: Ø7"

Hole capacity Ø1/4" to Ø1", multiple holes pr. run

Weight ca 150 Kg

E-line operated

Perforating Drilling Tool extended version

Electro / hydraulic tool

Pressure and temperature compensated

Length ca 5m

OD 3,75"

OD 4,5" anchor and drilling module

Largest anchor dia.: Ø9"

Hole capacity Ø1/4" to Ø1", multiple holes pr. run

Weight ca 175 Kg

E-line operated
